

## Teachers Entertained In S'cona Last Night

Addresses By Mayor  
Sheppard, Dr. McIntyre, M. P., Mr. D. S.  
McKenzie and Superin-  
tendent McCaig

The trustees and teachers of Strathcona entertained the delegates to the teachers' convention and the citizens of Strathcona last night in the assembly hall of the Grandin street school. The hall was tastefully decorated with flags, flowers and Chinese lanterns, and a splendid program of solos, instrumental and readings was given, besides speeches by Dr. McIntyre, M. P., Mr. D. S. McKenzie, deputy minister of education for Alberta, and Mr. J. McCaig, superintendent of city schools, Edmonton.

Mr. A. McLean, chairman of Strathcona public school board, presided, and in his opening remarks humorously related the methods of discipline used by teachers in the days when he was a boy, when "they used to shake the wits out of a fellow."

**MAYOR SHEPPARD.**  
Mayor Sheppard welcomed the teachers to Strathcona and congratulated them upon the growing increase in attendance each year at the convention. This new country depended much upon the teachers for the uprightness and intelligence of our coming citizens. The child carried the influence of the teacher's training through life. He was proud of the Strathcona schools and paid Mr. D. S. McKenzie, the former principal, a warm tribute; and said the excellence of the Strathcona schools was in no small way due to the foundation Mr. McKenzie had laid. He said last spring he had a conversation with Dr. Torrey, of Chicago, a noted educationist, who told him Alberta had the finest school system in America. This cast a great responsibility upon the teachers and public to maintain

TRIES TO BLOCK COMPETITORS

Built Track Across Proposed Entrance of Great Northern at Boundary

(Bulletin Special)

Brandon, Man. Oct. 25.—There will be an interesting case before the railway commission when it meets here next time. The C.N.R. last night took out a large gang of men and laid a section across where it is expected the Hill road will enter the town. The action of the company was caused when it was seen that the G.N. would reach the desired place first. The plans of the G.N. have been filed and approved while those of the C.N.R. have not as yet been submitted. It will be up to the board of railway commissioners to decide which company is entitled to the primary crossing.

and surpass the present high standard achieved.

**DR. MCINTYRE.**  
Dr. W. McIntyre, M. P., spoke upon "The Provincial University." In discussing this subject he was merely giving his personal ideas. He was not speaking from the inside. In this country everybody has to "hustle" for a living; would the university and its training help the young man to "hustle" more? He considered the question solely from the utilitarian point of view. The university should primarily serve the purpose of advancing and fostering the basic industry of the province. That industry was agriculture, hence there was need for scientific agricultural education. That might require more classics to master the nomenclature of the sciences. The establishment of applied sciences would lay the basis for a dozen industries. He held the citizens of the province did not want to give their children a pure arts training. The fields that they were anxious to exploit were civil, electrical and mining engineering, and we should build the university to give such a training as will help them to develop the material resources of the country so that its graduates will find scope within the province. He would leave law, medicine and the church to themselves. It was not the state's province to educate men for these professions.

He thought the teachers should act as an advisory body to the government in this matter. The first suggestion should be the securing of a large site. Almost every university in Canada and the United States realized that they had not secured a large enough site. He cited the case of Manitoba University, which was cramped up in one block.

His next suggestion was with respect to the machinery for control. He thought the teaching body and the graduates should elect by popular vote from university graduates with representatives from each faculty. His third suggestion was with respect to the selection of a president. The whole university re-

## A Real Pioneer

IS REVISITING EDMONTON

J. R. Newlands Built First House on Hudson Bay Townsite

J. R. Newlands, a man with a story, is at the Cecil hotel today, looking over Edmonton for the first time for many, many years.

Mr. Newlands is one of the real old-timers. He claims to have built the first house on the Hudson's Bay townsite, in 1882, or thereabout, and at one time owned the townsite of Strathcona, but traded it for a couple of cayuses and a saddle or some such portable property. He says he helped build the last York boat that ever ran on the Saskatchewan and he saw the opening of steamboat navigation which marked the dawn of the new era for the great lone land. As a trader he followed the first treaty outfit that ever dealt with the Indians in the west across the plains. He camped on the townsite of Winnipeg before the railroads were there and he saw the day was more than a theory and he advanced ahead of it across the plains, camping finally on the Vancouver townsite when there was not even a trail through the trees to mark where Granville street is now. From east to west he owned property that a cool million would not buy today. The one Edmonton lot alone, on which he built the first house, was sold not many months ago for \$10,000 and could not be bought for \$40,000 today.

And now, finally, after having seen an empire spring into existence along the track of one transcontinental, Mr. Newlands has spent the last three or four years anticipating another. He is interested with a number of Kumblocks men in 10,000 acres of land situated in the Tete Juan Cacho and Canoe River country. He has visited Fort George, the Upper Fraser, the Nichoche, the Bulkley and the Skeena, covering the whole route of the Grand Trunk Pacific from where it crosses the backbone of the North American continent to its terminus on the Pacific coast.

It was in 1875 that Mr. Newlands first came to the Northwest, coming in from Ontario by way of Duluth, St. Paul, Platteau Landing, Red Lake River and the Red River of the north, and until '79 he made his headquarters at Fort Garry, now Winnipeg. In 1879 he and a couple of companions, set out with a dozen cart loads of merchandise for Edmonton intending to trade with the Indians on the way. At Sounding Lake a party of Cree, hostile because they thought treaty was not coming to them fast enough, shot all the tops off their tents, intending it as a bluff to make them give up the goods they had in their possession. Major French, who has since become famous through his part in the South African campaign, was camped in the vicinity and pacified the Indians buying a part of the Newlands' outfit and distributing it to the Indians as a sort of first instalment of what they were to get on the treaty distribution.

Mr. Newlands came through to Edmonton in the autumn of '79 and later went into the service of the Hudson's Bay Company. He built boats at the old boathouse down by the old Fort, where the Parliament buildings are to stand, and then helped to build the last York boat that navigated the waters of this stretch of the Saskatchewan. When the Hudson's Bay Company surveyed its townsite it offered a free lot to the person who built the first house on it. Mr. Newlands held a bee; his friends and neighbors, all around came and helped him and they rushed up a house at the corner of Jasper and Third, on the lot which was recently purchased by Messrs. Ker and Rattenbury. Mr. Newlands sold the lot for \$450.

Mr. Newlands is around renewing acquaintances among the old timers. He says he looks Edmonton now and may make up his mind to stay.

(Bulletin Special)

Athabasca Landing, Oct. 25.—Messrs. H. B. Hunter and J. P. Wood who have been out locating a wagon road from here to Lesser Slave River on the north side of the Athabasca River returned today and report having located a splendid road with very little expense. They also report having crossed as fine a belt of country as can be found for settlement and equal in every way to the famous Stoney Plain district west of Edmonton, the soil being of the very best for all kinds of mixed farming. They finally believe that on the opening of this road the whole country from here to Lesser Slave River will be immediately settled.

## LATE BRIEFS

CALGARY STRIKE SETTLED.

(Bulletin Special)

Calgary, Oct. 26.—The arbitration committee appointed by the contractors and men to discuss the labor trouble here, arrived at an agreement this morning without having to secure the services of an independent person. Wages previously were thirty-five cents an hour for a nine hour day. The men asked for 45 cents an hour with an eight hour day. The agreement provides for 35 cents an hour till the end of the year, 40 cents from then till July 1st, then \$3.70 a day until January 1st, 1908. In every case there is to be a nine hour day. There is to be no discrimination between union and non-union men. Arrangements are made to have arbitrators meet on January 1st, 1908, to rearrange the scale. This means practically a permanent arbitration board for all building trades.

(Bulletin Special)

Havana, Oct. 23.—The British steamer Arabistan, from Monte Video, Sept. 1 for Porto Rico, Cuba, Boston and New York, has arrived here. The Arabistan was overdue, and had not been reported since the cyclone. The British steamer Kanawha, Captain McIlwain, which left Newport News, Oct. 16 for this port with 600 horses of the Eleventh Cavalry on board, has arrived here after having suffered severely in the recent cyclone. One hundred and twelve horses were lost. Twelve were swept overboard by a tidal wave off Savannah, and the remainder were lost during the cyclone. The steamer sustained damage to her superstructure and had her forecastle carried away.

EDMONTON TENT AND MATTRESS CO

Erecting \$6,000 Building on Second Street—Part of Large Plan

(Bulletin Special)

The Edmonton Tent and Mattress Factory Co., registered plans at the building inspector's office for a \$6,000 brick and steel building to be erected on Lot 167, Second street.

The new building is to be built on the rear end of the lot facing on the Jasper lane. It will be 23 by 50 feet, three stories high with deep basement and the structure is designed to carry heavy machinery for use in their mattress manufacturing business. The ultimate intention is to fill the entire lot making a building facing on Second street of fifty by one hundred and fifty feet, three stories, with offices in the ground floor and factory upstairs.

The contract for the present building is lot to J. N. Lang, who, associated with Purcell & Post, has undertaken to have it housed in by the middle of November. The excavation work has already been completed and the contractors will commence right away on what will probably be the most rapid piece of construction undertaken in the city this year.

The Edmonton Tent and Mattress Co. is doing a flourishing business and when their building now under construction is completed they will be employing sixteen to twenty hands turning out tents and mattresses. Owing to the lateness of the season the construction of the big main building cannot be undertaken this fall, but will be a part of their program of operations for next summer.

## Additional Locals

—The E.Y. & P. bridge has been replanted.

—Jack Morton will open a restaurant on the corner of Jasper and Third street on November 1st.

—W. H. Clark company expect to have the crank pin of the engine in the factory repaired by the middle of next week. The repairs are being made in Calgary.

—In the Bulletin report of the Jarvis-Graham concert yesterday we stated by mistake, it was Clark's orchestra that furnished the music. The orchestra was Harper's, which is an independent organization. The piano was kindly loaned them by Mr. Douglas.

—The Edmonton branch of the Canadian bank of Commerce are contemplating enlarging their offices and plans are being prepared in Toronto. During the alterations they will occupy the premises now occupied by the Imperial Bank.

—Edward Schneider a young man with more daring than discretion went into the Chinese restaurant on Namayo avenue, partook of his meal and refused to pay. Three Chinamen chased him along Rice street into the hands of the chief of police. The proprietor swore out an information against him for fraud, and Schneider will pay for his bluff by 7 days hard work at the R.N.W.M.P. barracks.

—Calgary Herald: J. R. Robinson, managing director of the Great West Lumbering company at Red Deer, is in the city. Mr. Robinson, in conversation with the Herald, gave it as his opinion that the Mountain millmen would not raise prices, but it might be possible that coast prices, which represent finished lumber such as edge grain flooring and sash of that kind, would be raised shortly.

SUCCUMBS FROM INJURIES

Instructed Companion and Cut Off His Leg to Save His Life

(Bulletin Special)

Winnipeg, Oct. 24.—Caught beneath his engine on the C. N. R. wreck at Ell, B. F. Unger, Colby, gave the directions by which his companions chopped off his leg to save his life.

Steam was escaping from the shattered boiler and the imprisoned man was being slowly roasted. He charged the fireman to tie a rope around the upper part of the limb that the might not bleed to death; then with one terrific blow of an axe, the leg was chopped free and the engineer removed from the steam bath. He retained consciousness the entire time, and gave the orders that caused the appropriation of a hand car on which he was brought to Winnipeg. For seven hours he sustained the appalling pain, only to die in St. Boniface hospital this morning.

## AN ALDERMAN DUCKED.

(Bulletin Special)

Winnipeg, Oct. 25.—Monday night the city council left on a trip of inspection to the new power site on the Winnipeg river. They returned tonight after a trip, the memory of which will last for many a day. When about fifteen miles on the canoe portion of the journey, a canoe handled by Peter Sauve, and carrying Alderman Peter McCalman and W. M. Scott, one of the engineers, was upset. The canoeman swam ashore and the other two were carried a hundred yards down a rapids and were saved by the occupants of two other canoes who went to their assistance. The following day two other of the aldermen were severely injured by falling on the slippery rocks. Yesterday the provisions failed owing to the delays having retarded the trip and the party of twenty-four were in an exhausted condition when they reached the settlement at Whitemouth.

## THE LATE INSPECTOR HAYNE.

(Bulletin Special)

Calgary Herald: The late Inspector Hayne, whose death was reported in yesterday's Herald, was very well known in this city; and in fact all over the west. For seven years he was in the barracks here, and also served at Wood Mountain and Regina. He was a member of the first contingent of police which went to the Yukon under Superintendent Constantine in 1897. While in the north he gathered material for a most interesting book on the north, which was published under the title of "The Police of the Klondike."

Henry Edward Murray Hayne joined the force in 1881, and his steps in the service were as follows: Corporal in 1889, sergeant in 1897, staff sergeant in 1899, and his commission as inspector, which was dated Aug. 1, did not reach Fullerton until a few days after his death. He was a son of Dr. L. Hayne, of Southsea, England, inspector-general of hospitals and fleets. He was a prominent Freemason, and belonged to the Church of England. The late officer was a very prominent figure on the rifle range.

### CHURCH CENSUS.

The workers' committee that have the matter of the church census in hand met last night. Representatives were present from Grace church, First Presbyterian, Queen's Avenue, First Baptist, German Baptist and the Salvation Army. The committee made a call for workers from the various churches as mentioned below: First Presbyterian 50, Queen's Avenue 40, McDougall 50, Grace 40, First Baptist 50, German Baptist 20, All Saints 50, St. Paul's 10, Kinsington Lutheran 10, Third Street Lutheran 10, Salvation Army 10; Creek church 10.

A meeting of the workers' committee will be held on Friday, Nov. 2nd, in Queen's Avenue church.

This work is undertaken in the churches as a matter of duty and it is regarded as a question of honor for each church to provide a sufficient number of workers to accomplish the work with despatch. It has been suggested that on the day appointed a half holiday be called.

### VISITING TEACHERS ENTER-TAINED.

(Continued from page 1.)

ceived its distinctive character and influences from the character of the president. None but the greatest would do for us.

In conclusion Dr. McIntyre said we are advancing in material wealth and importance as in educational matters. We must be carried on with the forward movement.

MR. MCKENZIE.

D. S. McKenzie, deputy minister of education, spoke on the "Alberta School System." The subject, he said, was an important one in view of the fact that we draw our teachers from every province in the Dominion, and our trustees from every country in the world, and many were unfamiliar with our system.

The Alberta system takes middle ground between the two extremes where the initiative of founding schools is taken by the government or by the people. The people are given as much control as possible in the erection of school districts. A school district may be erected on the solicitation of any three ratepayers where there is a school population of 20 children and 10 ratepayers. In case the people refuse to erect the district, the government does it, and appoints an official trustee, who exercises all the powers of a school board.

Referring to the foreign home settlers he said they were as anxious to establish schools as Canadians. During the last 13 months 100 new districts had been erected; covering 3,000 square miles, and the number of teachers had increased by 200. Each year about 100 teachers dropped out of the profession, which meant that 300 new teachers per year would be required. The annual school turned out 150 a year, which necessitated the importation of about 150 each year. They accepted only the best from other provinces. He was pleased to state the interest of a secondary education was growing and the rate of school attendance to the total population was increasing. There were one-third more candidates last year who passed the various examinations in Alberta than passed in the whole North-West Territories in 1905.

He said the difficulty of inspecting the schools was great because the teachers came from various normal schools and it required frequent inspection to obtain uniformity. The closing address was given by Mr. J. McCall, superintendent of city schools. Education, he said, was characterized by the optimism and energy that characterized the convention and the teachers of the province. The people of Alberta are not materialistic but are prepared to pay handsomely and adequately for education and equipment. Referring to Dr. McIntyre's speech he said it was a remarkable thing that Dr. McIntyre who was speaking as a representative citizen of the province was not in favor of a pure arts college, but one for agriculture or business. The university should be workable, we should not begin in the clouds, we can get culture, dignity and intelligence by service. He said we needed another normal school and thought that the nucleus of a philosophy department could be organized in connection with the normal schools.

**LOCAL**

—The E. Y. & P. track, on the  
 Strathcona side, has been put in good  
 shape by leveling the rails and cutting  
 the banks.

—The Young Men's club of  
 Queen's avenue have secured the  
 Winnipeg Trio for their concert on  
 November 1st.

—The date for taking the church  
 census will be announced next week  
 as soon as the workers' committee  
 receive sufficient names of workers  
 from each church.

—The annual meeting of the Ed-  
 monton senior hockey club will be  
 held in the Young Liberal club's  
 rooms this evening. It is important  
 that a large attendance be secured  
 as officers for the coming season  
 will be elected and the policy of the  
 club decided.

—Mr. Brett of Regina, Inspector of  
 foreign colonies in the west, is in the  
 city today after an absence of four  
 years. He says the foreign settlers are  
 making steady progress and that ev-  
 ery class is becoming Canadianized.  
 Speaking of the Doukhobors he said  
 that a number were no doubt tardy and  
 slow in adopting Canadian customs but  
 that at Yorkton in the heart of the  
 Doukhobor settlement one could see  
 dozens of settlers as well to do and as  
 progressive as English or Americans.  
 Mr. Brett says that a number of set-  
 tlers from the continent are coming in-  
 to Canada from the States. They more  
 readily adopt Canadian methods than  
 those who come direct. Mr. Brett is of  
 the opinion that the coming season will  
 be a good one for oats. The crop in  
 Saskatchewan and Manitoba will not  
 yield much of a surplus and as great  
 quantities will be necessary for railway  
 building the prices are pretty sure to  
 be good. Oats are now 28c on the track  
 at Regina.

**SOCIAL AND PERSONAL.**

Mrs. C. F. McKenzie, Fourth street,

Mr. F. W. Bowles and Mr. Muncy,  
 Canadian Northern auditors, who have  
 been in town for some days, check-  
 ing up the C.N.R. accounts, return-  
 ed to Winnipeg last night.

Miss Curry, sister of Mrs. D. S. Mac-  
 kenzie, who has many friends here,  
 in Edmonton during her visit here,  
 leaves today for Winnipeg, for a visit  
 after which she will go to Regina to  
 accept a position in the government  
 offices there.

Mrs. Bulyea received again yesterday  
 afternoon. The drawing room was  
 charming with yellow chrysanthem-  
 ums, while in the tea room, beau-  
 tiful red and cream roses formed the  
 decorations. Mrs. Rutherford re-  
 ceived with Mrs. Bulyea, and assisting  
 in the tea room were Mrs. D. S. Mac-  
 kenzie and Miss Curry.

The largest social event of the  
 week was the tea given yesterday  
 afternoon by Mrs. Sydney B. Woods,  
 which was the raison d'être for a  
 large number of smartly gowned  
 women turning out in summer  
 frocks, the day being a most pleas-  
 ant one for a function of this kind,  
 and the temperature being such that  
 light apparel had to be worn for  
 comfort. The drawing room was  
 fragrant from the perfume of the  
 exquisite flowers, and the hostess  
 greeted her guests here wearing a  
 gown of Russian lace over pale pink  
 taffeta. Miss Woods, her sister-in-  
 law, assisted in welcoming the many  
 callers and looked dainty in a fawn  
 eolienne frock which had a lining of  
 old rose silk, and effectively trim-  
 med with silk lace and Persian em-  
 broidery.

Serving tea and coffee were Mrs.  
 Almon and Mrs. Wilson, both wear-  
 ing pretty toilettes. Mrs. Pardee  
 was in charge of the ices. Assisting  
 were Mesdames Swaisland, Scott,  
 Watt and Miss Abby Sommerville.  
 Among those present were: Mrs.  
 Thibadeau, Mrs. Scott, Mrs. Nor-  
 quay, Mrs. Campbell, Mrs. Charles-  
 worth, Mrs. Saunders, Mrs. Field-  
 ers, Mrs. Gray, Mrs. Chas. May,

**CITY NEWS****THE NEED OF AN AMBULANCE**

Editor Bulletin,

Dear Sir:

Will you kindly allow me space in  
 your valuable paper for the following  
 letter, to draw attention to the very  
 great necessity for an ambulance con-  
 veyance in Edmonton.

Within the past two weeks there have  
 been brought by train to Strathcona  
 two serious cases which required spec-  
 ial operations, which could only be car-  
 ried out in a hospital. The first was  
 a man suffering from a fractured skull,  
 the second was that of a woman suffer-  
 ing from an internal injury. The pa-  
 tients were removed from Strathcona in  
 an ordinary bus, which was no doubt  
 made as comfortable as was possible  
 without proper ambulance tackle. I  
 wonder, Mr. Editor, if any of your  
 readers can imagine the suffering and  
 pain those two unfortunate people must  
 have suffered in such a conveyance.

Such conveyances for like cases are  
 a disgrace to a flourishing town like  
 Edmonton. I cannot imagine how it is  
 there has not been a demand for an am-  
 bulance carriage before now. It seems  
 absurd to me for a town to build two  
 hospitals and yet have no proper con-  
 veyance to take cases to them. I think  
 it is as essential for the one as the other.

Trusting this letter may bring for-  
 ward a remedy to the existing state of  
 things.

I am, sir,

Yours respectfully,

AMBULANCE MAN.

**WILL BREAK THE RECORD**

According to the returns already  
 in hand the indications are that  
 October, which is due to be the last  
 big month in building operations in  
 Edmonton this year, will be the  
 biggest month in the history of the  
 city. The permits so far issued  
 from the building inspector's office  
 this month total 600, to which  
 there is to be added yet this week  
 the city's telephone block, costing  
 \$22,000 and other miscellaneous  
 building will bring the total to the  
 quarter of a million mark. The  
 largest previous month was June,  
 when the total reached \$244,000. The  
 city's building for the year will go  
 well onto a million and a half.

The largest permits issued this  
 morning were the Edmonton Tena  
 and Mattress company's factory,  
 \$6,000, and a residence for Mr. M.  
 Kilpatrick, on Isabella street,  
 \$2,600.

**THE PLAY****EAST LYNNE**

The Pringle Stock Co. will produce  
 the old dramatic favorite "East Lynne"  
 at the Edmonton opera house tonight.  
 Nothing need be said of East Lynne;  
 it is one of those inspired dramatiza-  
 tions possessing a charm of its own,  
 the charm of touching the heart, which

MISS FLORENCE PRINGLE  
 As Barbara Hare in "East Lynne"  
 Friday night, Edmonton opera  
 house.

is immortal, which like fine gold be-  
 comes brighter with long service, which  
 the years cannot fade. The Pringle  
 stock company have spared no expense  
 in lavishly costuming for the produc-  
 tion of East Lynne, nor any pains in  
 preparing their lines. They will put it  
 on this evening as their best produc-  
 tion.

## WHO PAYS THE SURPLUSES

The contention of Premier McBride that the special grant which should be allowed British Columbia from the Dominion is the exclusive business of British Columbia and the Dominion Government is not likely to meet with enthusiastic approval from the other provinces.

The money which is given to a province by the Federal Government is not found money. It comes from somewhere and is paid by someone. The "somewhere" is the Federal revenues and the individual is the Canadian taxpayer.

It must be remembered that Canada is not only a group of provinces but a nation and that the people of Canada are not only residents of certain provinces, but of the Dominion as a whole. The Canadian therefore has a double interest in the subsidies paid by the Dominion to the provinces. As the resident of a province he is interested in the amount received by that province from the Federal Government but as a resident of the Dominion he is interested also in the amount paid by the Dominion to that and all other provinces.

In the matter of provincial subsidies the Dominion acts merely as the tax collector for the provinces. The money it distributes to the provinces, it must first collect from the people of the provinces. That the collection is made by indirect and not direct methods is a circumstance which does not alter the case.

It follows as cause and effect that the people who pay the taxes are interested in knowing how the taxes are disbursed and whether or not one of the beneficiaries gets more than his entitlement to. When therefore one of the provincial suppliers makes a largely increased demand for assistance the people of the whole Dominion are likely to claim the right of asking whether or not she is entitled to the increase by reason either of her larger contributions to the common fund or by reason of the greater burdens she has to bear in comparison with her sister provinces.

It will be objected that the General Government of Canada represents the entire country in negotiations with any individual province and is clothed with the power and the responsibility to safeguard the welfare of all from the great of one. Quite true, but it must be remembered that the grant now asked for is "special" as distinguished from regular, that therefore it must be requested rather than claimed, that it is an extra consideration asked for on account of the geographical conditions of British Columbia and to which British Columbia is entitled to the grant by her contribution to the funds from which the subsidies are drawn as whether the people of Canada are willing to allow her more than the sum to which she is thus entitled to enable her to overcome difficulties which the other provinces do not have to face. Whether therefore the request is left with the Federal Government as representing the whole people of Canada, or whether the other provinces claim the privilege of a direct voice in the adjustment, the people of the other provinces will take a lively and by no means disinterested view of the settlement.

To admit the claim of Premier McBride would entail the advancement of similar claims by representatives of other provinces and in the long run would tend to make the Dominion the victim of the provinces of which it is comprised. If the subsidies received by a province are to be determined by the success of the government of that province in dickering lone-handed with the Government of the Dominion it requires no great insight to foresee the political and financial tendency thus established. The political temptation would be for a Dominion government to grant or refuse "special" grants to provinces according as the giving or withholding might be supposed to profit its friends in the provincial politics. And the financial result of this practice continued through a long term of years could only be embarrassment of the revenues of the Dominion and consequently the doubling of the means by which those revenues are raised. In other words the people of Canada as residents of the various

provinces of Canada would be continually beseeching the Federal Government to collect more money from themselves to hand back to themselves. If the Federal Government refused to do so it would be assailed as starving the provinces; if it did so it would bankrupt the country. It was to avoid this danger that the conference of the provincial premiers was called to discuss the provincial subsidies and make satisfactory and absolutely non-political recommendations for the allotment of subsidies. With the single exception of Premier McBride the premiers carried out the spirit of the conference and while securing substantial increases of provincial grants did so not by the means of political juggling nor in a manner calculated to leave the question as the football for future scrimmages between the Dominion and the provinces. That Mr. McBride refused to acquiesce in this course is proof that he sought less the welfare of his province or his country than the supposed welfare of the McBride ministry and as well, in the language of Premier Whitney that the man from B. C. was neither "rank nor candid."

## SCHOOLMASTER'S TRIBUTE TO ZAM-BUK

T. B. Evans, head of Bronant school, Aberystwyth, says: "It is quite a matter of course for my scholars to tell me when anything is the matter with them, and I have paid particular attention to their skin troubles. I experimented with various things for the rashes, patches of scurf, and breakings-out from which the youngsters were continually suffering, but found nothing efficacious until I tried Zam-Buk. Zam-Buk proved itself a soothing and speedy skin-cure, and now, after a few weeks' constant use of it, there are no scabby faces, sore hands, pimples, or patches of scurf and ringworm in the whole school. I think Zam-Buk ought to be kept handy in every school and home." Zam-Buk is 50 cents a box. All stores.

## TIME CHANGES MANY THINGS

Advances Being Made To-Day Just as Actively as in the Past.

Quarter of a century ago there were many makers of custom-made shoes in the cities. Is there one known today—really known?

Machinery, supplemented by method, made better shoes, finished them better, and fashioned them right, so that all men could get the style they wanted, the size they wear, and the width that would fit.

A shoe in B width does not necessarily mean that the wearer must buy a suit of clothes of Semi-Ready type. But the physique type system of tailoring, used only by the Semi-Ready tailor shops, assures the same variety in sizes of suits or overcoats as do the shoe sizes and widths. With this perfect system it is possible to make up, ready to be fitted on, and finished in an hour, a suit of clothes from the best and most expensive cloths. It can never be dead stock. For every Semi-Ready type there is a man. Kelly & Moore will show the real Semi-Ready label to anyone. It is on the inside pocket of coats, trousers and overcoats.

THE Oxford Hot Water Boiler is built to use absolutely all the heat generated in the fire-pot.

The inclining walls of the fire-pot expose great surface to the direct heat of the fire. The first section is greater in depth than the other sections, and the flues of this section are bell-shaped, against which the heat rays sharply impinge, so that a greater body of water gets the direct effect of the fire.

## Oxford Hot Water Boiler

The entire boiler is steel and iron. The joints are made with steel push nipples, which are absolutely indestructible—no rubber washers.

## A Range That Burns All the Coal

MOST likely you have been throwing away good coal every day without knowing it. Coal that is only partially burned in the fire-box.

Because, with the ordinary range draft, the air current only strikes part of the fire.

Usually the damper door on such a range is situated at one end of the fire-box, which makes your fire hot at the draft end and cold at the other end.

Or the damper is perhaps on the left side of the stove, which makes an uneven fire for the same reason.

You are not only losing fuel, but your cooking and baking is unsatisfactory, for you cannot get a uniform heat.

Now, the draft in a Monarch Range is entirely different.

Instead of one damper door, there are two, one in each end of the fire-box.

These form a double or Duplex Draft, and both are regulated by the same handle.

So you get two direct currents of air at the same time, and your fire burns smoothly and evenly.

## Trouble Ahead For The Winnipeg Grain Exchange

Expelled The Grain Growers  
Grain Co., Ltd., From The  
Exchange And Litigation Is  
Likely.

Winnipeg, Oct. 24.—By its action in suspending from the privileges of the exchange the Grain Growers Grain Co., Ltd., the Winnipeg Grain and Produce Exchange has probably involved itself in one of the blindest legal actions that ever disturbed the grain trade of Canada. It is more than probable too, that the expelled company will make such representations to the royal grain commission at present investigating the grain trade of Western Canada, and now in Minneapolis, at its next sitting, that it will have occasion to investigate the local grain exchange and its methods. The Grain Growers Company is a co-operative concern in which 2,500 western farmers are shareholders. The company proposes to handle grain for its shareholders on a commission basis of one cent a bushel, all profits at the end of the year to be distributed in the ordinary method employed by companies in distributing dividends. For the past year the exchange has been rigidly enforcing its rule regarding commission to be charged by members handling the grain of non-members. Many members have been penalized for breaches of the rules, but all have heretofore paid the penalty and raised no objection. The regular commission of one cent a bushel is charged outsiders but anything in the nature of a rebate or tacit understanding to return part of the commission charged is absolutely prohibited under the rules of the exchange. The proposal of the Grain Growers Co. to return to its shareholders a portion of the year's profits in the shape of dividends, is regarded by the exchange in the nature of a rebate. The company claims that as an incorporated concern, its shareholders are entitled to a share of the profits. This is the point which has occasioned the trouble. A stormy session of the Grain Exchange today ended in the expulsion of the company from membership, and legal proceedings will be commenced which will test the powers of the exchange under its charter to pass such rules. The enforcement of the commission rules has occasioned much hard feelings among the members of the exchange, by many of whom it is claimed that the elevator interests have a majority on the council, and swing things to suit themselves. To eliminate track buyers and thus direct country deliveries to their elevators is alleged to be their object. Severe rules have been passed by the council which would appear to actually prohibit a track buyer doing business at country points, while the acute shortages taken in connection with the country deliveries, has simply forced the farmers to sell to elevator people at prices from six to ten cents a bushel less than the market price at Winnipeg. All these facts will, it is said, be established before the grain commission. So far as the lawsuit is concerned, the officials of the exchange state that they are willing to go into court to maintain their action. The fight is likely to be a bitter one.

Winnipeg, Oct. 24.—C. C. Castle, warehouse commissioner, has retained H. G. W. Wilson of Indian Head, to institute proceedings against the railways and elevators in the west for irregularities in the handling of cars. The farmers of the west have been complaining loudly of the treatment and as the result of an investigation, proceedings will be started immediately. It is the intention of the warehouse commission to strictly enforce the provisions of the Manitoba Grain Act.

### THE FOUNDING OF PRINCE RUPERT.

Montreal Herald: The definite statement was made by Chas. M. Hays, president of the Grand Trunk Pacific, on his return from a six week's tour through the West, that immediate steps would be taken to transform Prince Rupert from its state of natural wilderness to the beginning of a great railway terminus. The foundations are already laid and the embryo of the terminal city is promising.

This looks like a determination to have the whole Western system in operation as speedily as it can be built for money spent on Kai-en Island is not likely to yield big returns until the railway gets there.

Mr. Hays, who was accompanied by Mr. F. H. McQuigan, fourth vice-president and Mr. Henry Phillips, secretary of the Grand Trunk Pacific, arrived at Bonaventure Station by special train shortly before midnight. He was met by Mr. H. S. Logan, assistant to the Grand Trunk general manager, with

official correspondence that demanded immediate attention.

Mr. Hays pronounced his trip to have been most interesting, and he declared that he had seen as he never saw before the enormous capacity of the West. He added that they found everything in a satisfactory condition with the construction work going on well. Driving for seventeen days across the prairies between Portage La Prairie and Edmonton, they were never out of sight of the construction gangs. They saw the whole progress of the work and were satisfied with what they saw. The distance was 700 miles, and the experience was pleasant and refreshing. The novelty of camping out at night for seventeen days was keenly relished.

Mr. Hays said he was highly pleased with the country. Almost all the way is rich agricultural land, and they found the homesteads of settlers all along the route, most of them having gone in anticipation of the railway following them. Many of them are already growing crops of oats, which they were able to dispose of profitably to the contractors, and they seemed to be making a good start, and appeared to be well satisfied. Mr. Hays questioned whether anyone would be able to make the trip again with the same freedom, as the farmers were fencing their land up to the railway's right-of-way, and there would have to be a great deal of disengaging to get round the fences. It is nearly all open country with the exception of a few places lining the Eagle and Touchwood Hills, but there are only about four such breaks in the whole route.

Mr. Hays said the company had done some between five and six hundred miles of grading, and though there was little track laying done they expected to make good their promise to take out their share of the wheat crop of 1907.

"What is your opinion regarding the terminus—is it absolutely decided now that it will be Kai-en Island?"

"Yes, there is no doubt about that," replied Mr. Hays. "I think that as a harbor Prince Rupert will be second to none on the Pacific Coast. It has a splendid stretch of deep water right to the shore, while Digby Island acts as a natural breakwater. The wharf now built there affords a very good landing."

The party spent four days at the terminus—from Tuesday night till Sunday morning. They had a private launch at their service, and were able to make a very thorough survey of the surroundings. Mr. Hays declared that he found the place quite busy. Their own men were clearing land and erecting buildings, and the Government had parties making hydrographic surveys under the direction of Mr. Dodge.

Mr. Hays intimated that it was the intention to go right ahead with work. "We shall," he said "put in 3,000 or 4,000 feet of additional wharfage without delay, and will have men there working all winter clearing up land for building and terminal purposes."

The president added that the erection of a hotel to cost between \$30,000 and \$40,000 will be commenced at once, and the building will be completed within five months. "We are busy clearing 1,000 acres of land now on the town site. Many men are being employed and a large amount of money will be spent here. An order for 160,000 ties has been given to the mill at Seal Harbor for a start."

On being questioned as to when the construction of the Grand Trunk Pacific would be started from the British Columbia end, Mr. Hays said: "That's a matter that must necessarily await the reports of our surveyors. We have about sixteen parties out in this country now, and we shall have to get their reports and collate them before coming to any decision."

"But may not your present work at Kai-en Island be regarded in some measure as a preliminary to construction at that end?" was asked.

"You may depend upon it that when we are ready to begin we shall start construction from both ends, and in the middle, too, if we can do it."

Speaking of the climate, Mr. Hays said: "I was able to give some of the party a little jolt on that, because they had told me it was always raining up there. I was there four years ago and it was fine sunny weather all the time, and this time it only rained one day. It seems to me that every place thinks it rains a little more in every other place that it actually does. In Victoria I understand they say that it rains all the time in Vancouver, and I suppose the people of Vancouver are apt to think it rains more again in other places, though I question whether there is really so very much difference between the various places along the coast. We saw no weather that would keep one indoors while we were there."

Mr. Hays declared that in time the company would undoubtedly build a branch running down to Vancouver, but he could not say when it would

be begun. It might be dependent upon the progress made with the other work.

Replying to a query as to the effect the shortage of labor might have on the completion of the Pacific section, Mr. Hays replied that the trouble was being gradually overcome, now that the harvest had been gathered and the helpers were free for other work. So far as it was possible they would take all these men and employ them through the winter. The weather precluded outdoor work in most places, but wherever it was at all possible they would keep operations going through the winter, so as to have the men on the ground as soon as the spring opens. "Next year," said Mr. Hays, with decision, "I expect tremendous progress."

### BARK ASHORE ON VANCOUVER ISLAND.

(Burlington Special)  
Victoria, B. C., Oct. 23.—Sarkentine Skagit of Port Townsend from San Francisco to Port Gamo, a west ashore at Coosue, west coast of the island, this morning. Captain Sarkentine and the crew are reported drowned but the balance of the crew reached shore in safety. The point where she struck is near Coosue, a few miles north-west of Carmanah point and about seven miles southeast of Port Gamo. The ship was carrying a large quantity of lumber and was en route to erect a signpost.

### Oxford Hot Water Boiler

IN the Oxford Boiler we have taken advantage of every point known to the science of hot water heating.

Without enlarging the boiler we have greatly increased the radiating surfaces, thus almost doubling its power. The fire-pot is, of course, jacketed with water, practically insulating the fire, and keeping its heat within the boiler.

The sides of the fire-pot slant inwards over the fire, giving a greater surface for its action. The first water section is double the depth of other sections and nearer the fire than any other heat exchanger.

make, and the flue openings are bell-shaped, presenting an enlarged surface to the direct heat rays.

All joints are made with our push nipple, no rubber or fabric washers being used. To this is due the fact that they never leak.

You cannot afford to install any heating apparatus without first investigating the Oxford systems. We would like to send you our new catalogue, explaining and illustrating the Gurney Oxford steam and hot water apparatus. It tells the whole story, and we send it free on request. Write for it.

### A ROAD MATERIAL.

Ottawa, Oct. 25.—P. B. MacNara, Canadian agent at Manchester, describes the latest road material, which is claimed to have solved the dust problem, and which will be of interest to Canadian municipalities. It is known as taafola and is really a cheap, artificial asphalt. It consists of about 12 per cent. tar or pitch, powdered limestone, powdered furnace slag, and an alkaline solution, all mixed in proper proportions and heated in a vacuum over 300 degrees Fahrenheit. The cost for road surface is only eight cents per square yard, while a complete road made of it entirely costs but 75c a yard.

### THE CANADIAN MILITIA.

London, Oct. 25.—Col. Stone, formerly commanding the Canadian artillery at the Royal United Service institution, today delivered a lecture on the organization of the Canadian militia. Colonel Stone, in the course of his lecture, said that the system of training inaugurated by General Hutton, for both cavalry and infantry, was a daring innovation, the success of which, however, more than justified it. It amounted in principle to the application of common sense and the adoption of means available to attain the end in view. "As regards infantry, our militia has nothing to gain by borrowing anything from Canada. The constitution of the two forces is very similar but our system of instruction and training is more advanced and occupies a far longer time than it does in Canada." Concluding, Col. Stone said, "No one can be associated with the Canadian militia as I have been without being deeply impressed with the intensely national character of the force. The militia enters into the daily life of the Canadian citizen and farmer."

### RULED BY THE SUN.

Chicago, Oct. 25.—A despatch from Austin, Texas, says: The state supreme court has rendered a decision that solar time and not railroad or standard time must govern legal proceedings. The case was one involving a valuable tract of land. The jury had brought in a verdict three minutes after midnight as measured by standard time, or fifteen minutes before midnight by solar time. The trial judge held that the term of court expired at midnight, standard time, and refused to enter judgment. The supreme court ordered the entering of the verdict on the ground that solar time governs courts.

### MR. OSTROM QUILTS.

Winnipeg, Oct. 25.—Word has been received here that Marshall Ostrom, who has been managing director of the Monarch Life Assurance company since its inception has resigned. Mr. Ostrom writes to the company's secretary here to the effect that he has turned over all papers, plans and certificates in his possession to Hon. Robert Rogers, chairman of the board at Winnipeg. The company is almost entirely a western one. The action of Mr. Ostrom was evidently induced by the recent investigation of the insurance commission.

### WIDOW RECEIVES DAMAGES.

(Bulletin Special.)  
St. Thomas, Ont., Oct. 25.—At the assize court today Mrs. Ada McKay, of Toronto, was given judgment against the Wabash Railway company for ten thousand dollars and costs for the killing of her husband in a collision between the Wabash and C. P. R. express trains on August 24th.

### JAPANESE HURRICANE.

(Bulletin Special.)  
Tokio, Oct. 25.—A hurricane swept over southwestern Japan yesterday. Several coral fishing boats are reported missing.

### WINNIPEG LIBERALS DINED.

(Bulletin Special.)  
Winnipeg, Man., Oct. 25.—The monster Liberal banquet was held in the Royal Alexandra hotel this evening. Among the many prominent Liberals who addressed the large assembly was Provincial Leader Brown, of Portage La Prairie, who also spoke of the prospects of the party. Horace Cheverton, M.P. for St. Boniface, also addressed the audience in both French and English. The attendance was very large and the evening was a decided success. Great enthusiasm prevailed, which augurs well for the success of the party at the polls at the coming general election.

### LETTING THEM OUT.

(Bulletin Special.)  
Montreal, Oct. 25.—Forty-four passenger conductors of the Grand Trunk railway running between

Portland and Toronto have received their dismissal and it is stated that some thirty others running between Toronto and Chicago on the Grand Trunk will also be requested to hand in their resignations.

### WILL RESERVE THE TOWN-SITE.

(Bulletin Special.)  
Ottawa, Oct. 25.—Fort Churchill will at no distant day be the terminus of one or more railway lines. To prevent land in the vicinity being captured by speculators Major Moodie received instructions when he went north last summer to have the land staked out into a government reserve. A letter received from him today says that he has carried out the instructions given to him. The major has also arranged for a trip over the snow by dog train from Churchill to Oxford House, where he will meet another patrol from Winnipegosis.

## (Bulletin Special)

St. Paul, Oct. 24.—Five men who robbed the Sawyer N. D. Bank, Monday, when there was a battle with the citizens, were captured by the sheriff's posse on a farm near Minot. They attempted to escape, a fight ensued and one robber was shot in the leg. He threw the money away, but three thousand dollars was recovered. The robbers are all young and well dressed, none over twenty-five years of age.

London, Oct. 24.—At the Newmarket-Houghton meeting, Cambridge, three years old and upwards, one mile fur-long was won by Polyemus, ridden by Maher, Kaffer Chick second, Malta third; twenty ran.

## FOSTER'S FORECAST

Washington, Oct. 23.—Last bulletin gave forecasts of disturbance to cross continent 29 to 24, warm wave 19 to 23, cool wave 22 to 24. Next disturbance will reach Pacific coast about 28, cross west of Rockies country by close of 27, great central valleys 28 to 30, eastern states 31. Warm wave will cross west of Rockies about 26, great central valleys 28, eastern states 30. Cool wave will cross west of Rockies about 29, great central valleys 31, eastern states, Nov. 2.

This disturbance will belong to a period of low temperatures and, while the warm wave will bring temperatures only a little above normal the cool waves before and after the warm wave will go to quite low degrees, probably resulting in moderate cold waves. Temperatures will go most to extremes along a line from Texas to Maryland with a higher relative average in southern Ohio than elsewhere. Frost will go into Texas, Ohio, Maryland and along that line 25 to 27.

With this disturbance, not much rain may be expected north of Ohio and Arkansas rivers and between the Alleghenies and Rockies. Most rain will occur farther south and east. About Oct. 29 a cool wave will be progressing eastward through the central valleys, followed by a warm wave that will reach Mediterranean 30 about 22nd.

## REPUTATES BORDEN

Halifax, N. S., Oct. 24.—It is rumored in Conservative circles in this province that the Hon. Geo. E. Borden will be asked to retire from the active participation of the affairs of the party as a result of the investigation into the I.O.F. affairs held recently at Toronto. The local Conservative organ is booming the candidacy of Weston, and as he has practically repudiated E. L. Borden as leader of the party, it would look as if Borden is not making many friends among the Conservatives of this province.

## Teachers Meet

IN ANNUAL CONVENTION

## Tenth Annual Gathering of Alberta Teachers Association

The tenth annual convention of the Northern Alberta Teachers' association opened yesterday morning in Grandin street school, Strathcona, and will conclude with the session this afternoon. The attendance yesterday was large, the papers were excellent and the discussion following each paper showed enthusiastic interest.

At the morning session, Mr. Watt, of East Edmonton, read a paper on the "Relative Educational Value of Public School Studies." He argued that since the public school is a state institution the program of studies should be those that best serve the interests of the state and fit the child for the duties of citizenship. The curriculum should be practical and meet utilitarian ends. The teacher should fix a time limit to be devoted to each subject during the 25 teaching hours of the week and the limit should be graded to the importance of the subject. The greatest amount of time should be given to reading and its companion subject, literature. He claimed that the schools should be supplied with papers and periodicals to inform students of the current news of the day.

Arithmetic and mensuration came next in importance and business methods were strongly emphasized. Drawing and writing were next, and the speaker advocated more free-hand movement in the use of copy books; a child should be trained to write 30 words in their copy books instead of 7 words per minute as is now the practice. The schools should adopt business college methods. Composition, geography, spelling and grammar came next in order.

Another paper by Mr. Martin on the vexatious question of formulating a time table in an ungraded school was well received and showed a scientific treatment of the subject. The afternoon session brought out two good papers. Dr. Ferris, of Edmonton, dealt with the subject of "Hygiene in the School and the Teacher's Responsibility." The paper was a sane and able presentation of the subject. He spoke of the necessity for hygienic conditions in the school room and grounds, and stated the school was a community in itself where the individual affects the welfare of the whole. The paper was nicely introduced and contained a mass of detail very useful for teachers. He pointed out the necessity of personal cleanliness and right seating, and particularly warned the teachers not to fatigue their pupils. He traced the effect of fatigue on mental activity as well as on discipline. He dealt at length with infection. The paper was listened to with pleasure and provoked an interesting and instructive discussion. A vote of thanks was unanimously accorded Dr. Ferris for his paper.

Principal Scott, of McKay avenue school, Edmonton, gave a paper on "When to Introduce Texts." He said the text book was necessary for seat work, but it should be largely an exercise book. He pointed out that the enslavement to a text book made the child memorize too much and reason too little. He would introduce reading texts from the first, arithmetic at standard III for review work. The arithmetic text should be supplemented in the higher forms. He was strongly opposed to having any text in history for it was beyond the pupil, even as far as the calculus. A grammar text is of no use to a pupil. The pupil can not prepare his own grammar lesson. Texts in algebra and geometry were only useful for exercises. The text book has only a secondary place in school work.

### FT. SASKATCHEWAN NEWS

Fort Saskatchewan, Oct. 24. — Father Leduc was in town on Monday looking after the interests of the Roman Catholic church on this side of the river.

Rev. J. M. Nobels of the provincial government offices, came down on Saturday and went on to Bruderheim on Sunday morning to take charge of the service in the Reformed Lutheran church at that point.

Several automobile parties have visited us this week from Edmonton. Dr. George Turner returned on Thursday from Calgary, accompanied by his bride.

Dr. Clendenen, provincial health inspector, was in town on Tuesday on professional business.

Mr. Wm. Corbett, principal of the public school, was obliged to go east last night owing to the serious illness of his mother.

The school will be closed on Friday.

to allow the teachers to attend the convention which is to be held in Strathcona on Friday and Saturday.

Mr. Hooper of Wetaskiwin, is down at the Fort on a business trip. He is accompanied by Mrs. Hooper.

Mr. Fraser, of the firm of Danial & Fraser, is laid up with an attack of typhoid fever. The prevalence of this disease is most distressful at the present time.

From the present outlook the inhabitants of the Fort will not rust for want of entertainment this coming season. The Fringle Comedy Company has just concluded a two night's engagement, playing "The Convict's Daughter" and the old emotional play "East Lynne" to fair sized houses. Next month we are to have the "Polmatier Sisters" who come with highest recommendations. Following close upon them are the "Carolina Jubilee Singers" of the Star course, then, probably the first week in December we may expect something extraordinary from our own local talent in the way of minstrelsy. This concert is in the course of preparation now. The proceeds are to go towards the hospital fund. Besides all this there are several other attractions pending.

Mrs. Chard, of Kirkella, Man., is here on a visit to her son Mr. Alf. Chard, station agent.

Mrs. R. J. Berry has been engaged to teach in the intermediate department of the public school, pro tem.
